

Do not weaken NJ state's Do Not Call laws. As a private citizen, I should have the right to not be solicited by any telemarketers. I have taken the time to register all my phone numbers with the Do Not Call list specifically for this reason. The calls are intrusive and I have never in my life - not once - found a call from a telemarketer to be useful in any way. I fully support NJ state's Do Not Call regulations and am against weakening them in any way.
